CONTENTS

GUPTA, B. L., MELLON, D., JR and TREHERNE, J. E. The organization of the central nervous connectives in *Anodonta cygnea* (Linnaeus) (Mollusca: Eulamellibranchia) 1

MULLINGER, A. M. The organization of ampullary sense organs in the electric fish, *Gymnarchus niloticus* 31

WEBSTER, H. DEF. and AMES, A., III. Glutaraldehyde fixation of central nervous tissue: an electron microscopic evaluation in the isolated rabbit retina 53

LATIES, A. M. Histological techniques for study of photoreceptor orientation 63

SHOENBERG, C. F. An electron microscope study of the influence of divalent ions on myosin filament formation in chicken gizzard extracts and homogenates 83

TICE, L. W. A comparison of the distribution of enzymatically and non-enzymatically produced lead phosphate in insect flight muscle 97

LOCKE, M. The ultrastructure of the oenocytes in the molt/intermolt cycle of an insect 103

ODHIAMBO, T. R. The architecture of the accessory reproductive glands of the male desert locust. 1: Types of glands and their secretions 155

NEVILLE, A. C., THOMAS, M. G. and ZELAZNY, B. Pore canal shape related to molecular architecture of arthropod cuticle 183

WEBSTER, H. DEF., AMES, A., III and NESBETT, F. B. A quantitative morphological study of osmotically induced swelling and shrinkage in nervous tissue 201

EDWARDS, A. S. The structure of the eye of *Ligia oceanica* L. 217

NAKAJIMA, Y. Fine structure of red and white muscle fibers and their neuromuscular junctions in the snake fish (*Ophiocephalus argus*) 229

BERRIDGE, M. J. and OSCHMAN, J. L. A structural basis for fluid secretion by Malpighian tubules 247

CROSSLEY, A. C. and WATERHOUSE, D. F. The ultrastructure of a pheromone-secreting gland in the male scorpion-fly *Harpobittacus australis* (Bittacidae: Mecoptera) 273

GUPTA, B. L. and SMITH, D. S. Fine structural organization of the spermatheca in the cockroach, *Periplaneta americana* 295

ODHIAMBO, T. R. The architecture of the accessory reproductive glands of the male desert locust. 2: Microtubular structures 325

HORRIDGE, G. A. Statocysts of medusae and evolution of stereocilia 341

NEVILLE, A. C. and LUKE, B. M. Molecular architecture of adult locust cuticle at the electron microscope level 355

FILSHIE, B. K. and WATERHOUSE, D. F. The structure and development of a surface pattern on the cuticle of the green vegetable bug *Nezara viridula* 367

WUERKER, R. B. and PALAY, S. L. Neurofilaments and microtubules in anterior horn cells of the rat 387

MULLINGER, ANN M. and SMITH, J. J. B. Some aspects of the gross and fine structure of the amphibian papilla in the labyrinth of the newt, *Triturus cristatus* 403

BACCETTI, B. and LAZZERONI, G. The envelopes of the nervous system of pseudoscorpions and scorpions 417

HORRIDGE, G. A. The eye of *Dytiscus* (Coleoptera) 425

SMITH, D. S. The fine structure of haltere sensilla in the blowfly, *Calliphora erythrocephala* (Meig.), with scanning electron microscopic observations on the haltere surface 443

ASHHURST, DOREEN E. The fine structure of pigeon breast muscle 485
GILL, J. B. and BURFORD, H. J. The effect of antidiuretic hormone on avian salt gland function 497
LING, E. A. The structure and function of the cephalic organ of a nemertine *Lineus ruber* 503
CROSSLEY, A. C. and WATERHOUSE, D. F. The ultrastructure of the osmeterium and the nature of its secretion in *Papilio* larvae (Lepidoptera) 525
LOCKE, M. The localization of a peroxidase associated with hard cuticle formation in an insect, *Calpodes ethlius* Stoll, Lepidoptera, Hesperiidae 555
LATIES, G. G. and TREFFRY, T. Reversible changes in conformation of mitochondria of constant volume 575
SHAY, J. W., DOBSON, W. J., SIMMONS, E. E., BIESELE, J. J. and BRELAND, O. P. Subunits of flagellar accessory tubules 593
CHANG, K. P. and MUSGRAVE, A. J. Histochemistry and ultrastructure of the mycetome and its 'symbiotes' in the pear psylla, *Psylla pyricola* Foerster (Homoptera) 597
COLEMAN, G. S. and HALL, F. J. Electron microscopy of the rumen ciliate *Entodinium caudatum*, with special reference to the engulfment of bacteria and other particulate matter 607
CHAPMAN, D. M. The nature of cnidarian desmocytes 619
ANDERSON, LUCY M. and TELFER, W. H. A follicle cell contribution to the yolk spheres of moth oocytes 633
WUERKER, R. B. Lipid droplet and microfilaments in a neuron 645
HOPKINS, C. R. The fine structural localization of acid phosphatase in the prolactin cell of the teleost pituitary following the stimulation and inhibition of secretory activity 653
SMITH, D. S., JÄRLFORS, U. and RUSSELL, F. E. The fine structure of muscle attachments in a spider (*Latrodectus mactans*, Fabr.) 673
NEVILLE, A. C. and LUKE, B. M. A two-system model for chitin-protein complexes in insect cuticles 689
